

KAJABI COURSE SETUP & CURRICULUM ORGANIZATION

Supported a course creator in setting up and organizing their Kajabi learning platform.

My responsibilities included structuring the course curriculum, organizing lessons into logical modules, configuring the course outline, and preparing the learning environment for a clear and intuitive student experience.

The focus was on creating a well-organized course foundation that made content easier to navigate and manage for both the creator and future students.

PLEASE NOTE: The person in this image is not the actual client. This is a presentation for portfolio purposes only. Clients identity is kept private for confidentiality.

SKILLS DEMONSTRATED

- Kajabi
- Course Creation
- Learning Experience Design
- Curriculum Development
- Information Architecture

The screenshot shows a web application for managing courses. On the left is a sidebar with navigation links: Get Started, Dashboard, Products (expanded), Courses (highlighted), Coaching, Community, Podcasts, Newsletters, Downloads, Sales, Website, Branded App, Marketing, Contacts, Analytics, Settings, and Contact support. The main header shows the breadcrumb 'Courses / Disruptive : Leadership, Manhood, Marriage' and a user profile 'May Correa'. Below the header, the course title 'Disruptive : Leadership, Manhood, Marriage' is displayed with a search icon. A sub-header contains tabs: Outline (active), Customize, Offers (0), Customers (0), Certificates, and Settings. The main content area features a search bar 'Find module or lesson...' and a section titled '5 Modules' with an 'Expand All' button. The modules are listed in a table-like structure:

Module Name	Action	Status
Introduction Video	+ Add Content	Draft
Introduction Video		Draft
Module 1: Foundation	+ Add Content	Published
Module 2: Strategy	+ Add Content	Published
Module 3: Execution	+ Add Content	Published

Organized the course into a structured module hierarchy, creating a logical learning progression and improving the overall student experience through clear lesson organization and platform setup.

MY CONTRIBUTIONS

- ✓ Kajabi Course Setup
- ✓ Lesson Organization
- ✓ Module Structure
- ✓ Curriculum Organization
- ✓ Learning Navigation
- ✓ Course Configuration
